

DOWNLOADING YOUR NEW PRESET

THANK YOU FOR PURCHASING YOUR MOBILE PRESET,
FOLLOW THE INSTRUCTIONS BELOW TO DOWNLOAD

- 1 Once your preset is purchased, click **PRESET** on your order received screen

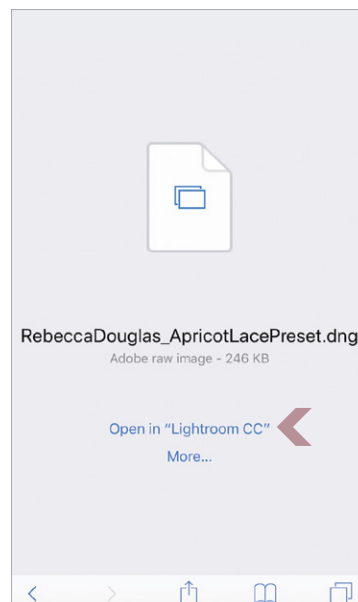

- 2 Next, click open in Lightroom CC

Open in "Lightroom CC"

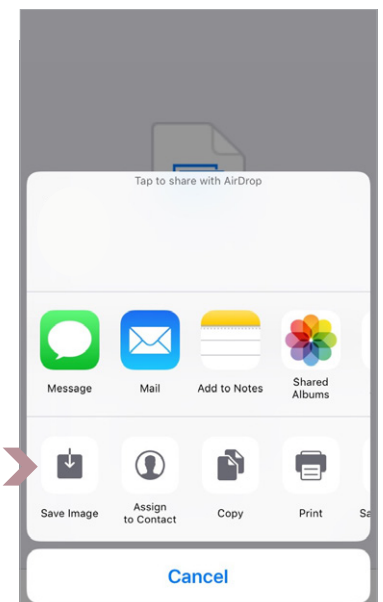

PLEASE NOTE*

If Lightroom is not the default option, click More... then click Save Image

More...

IF LIGHTROOM IS NOT YOUR DEFAULT

- 3 When the image opens in Lightroom CC, Click the 3 dots  at the top right.

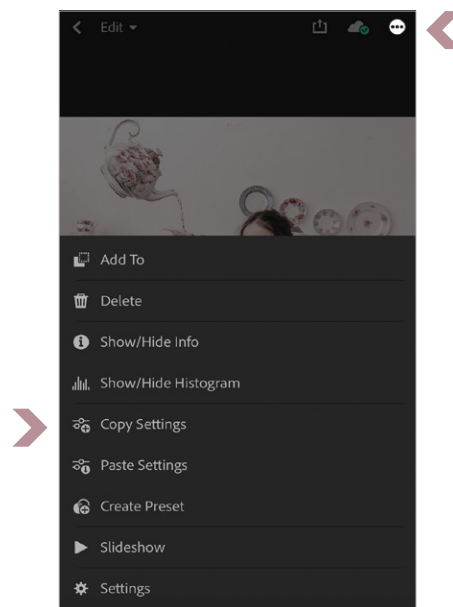

PLEASE NOTE*

IF LIGHTROOM IS NOT YOUR DEFAULT

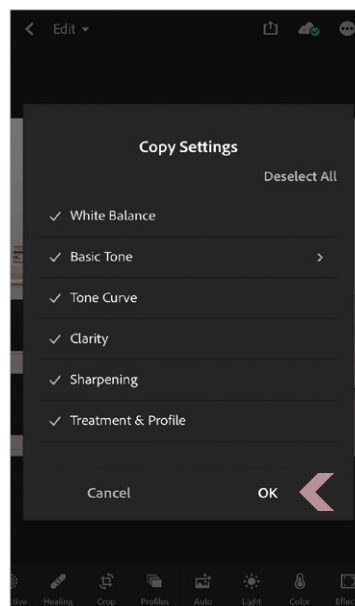

If you had to Save your image,
Open your Lightroom CC app, go
to your gallery and choose the black
DNG photo

- 4 After clicking the 3 dots,
press Copy Settings

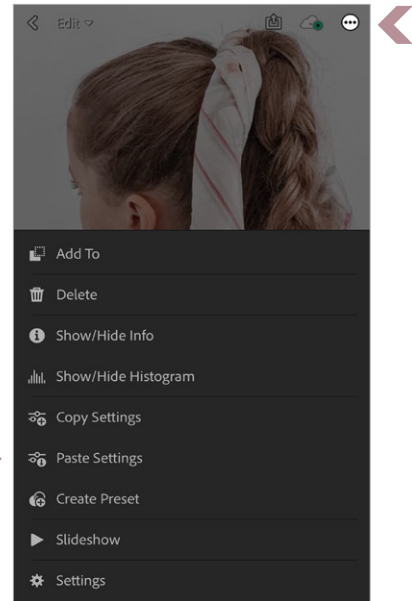

- 4 Click Ok

3 Choose your preferred image that you would like to apply the preset to.

Click the 3 dots  and go to Paste Settings

YOUR PRESET IS NOW APPLIED!

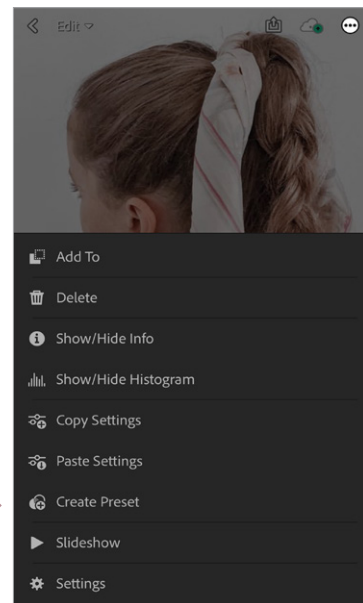

The Preset file you purchased and imported into Lightroom CC will live in your library as a .DNG file.

Simply copy the image settings and paste into any of your photos to apply the Preset.

If you would like to save the preset for continual use, click create preset & name it.

From here you can also edit the exposure, temperature, saturation & colors to your liking.

Enjoy!
